

## ABOUT ADRIATIC METALS

We value a diverse and motivated workforce that thrives on seeking responsibility for excellence.

Adriatic Metals BH d.o.o. is committed to building a working environment that is secure, fair, and diverse and a culture that fosters leadership and allows every person to contribute and realize their potential. Sound employment practices are crucial to developing a workforce with the necessary skills and qualities to support a successful, ethical, and responsible business. Diversity is celebrated and encouraged.

### Projects Electrical Engineer

#### Main responsibilities:

- Deliver end-to-end electrical engineering services—from design and planning to execution and commissioning.
- Oversee day-to-day project activities, manage subcontractors, and ensure work is performed in accordance with project specifications and quality standards.
- Promote and enforce a strong safety culture on site, ensuring compliance with safety regulations and implementing measures to mitigate risks.
- Provide effective leadership to on-site teams, fostering collaboration, motivation, and a commitment to project success.
- Facilitate clear and effective communication with project managers, engineers, subcontractors, and other stakeholders to provide updates, address issues, and maintain project transparency.
- Monitor project costs, adhere to budget constraints, and identify opportunities for cost savings without compromising safety or quality.
- Identify and resolve electrical/instrumentation related challenges promptly, collaborating with project teams to implement practical solutions.
- Maintain accurate and up-to-date project documentation, including daily reports, progress logs, and change orders, to ensure a comprehensive project record.

## ABOUT YOU

**The most successful candidate will ideally possess the following:**

- Relevant university degree in Electrical Engineering. (essential)
- Passed the state professional exam for technical management in mining operations. (desirable)
- Minimum of 3 years of relevant professional experience, preferably in mining or heavy industrial environments.
- Experience working in electrical teams, on front end greenfield / brownfield development projects.
- Project design experience throughout the project cycle.
- Strong working knowledge of HV/LV electrical systems, instrumentation, PLCs.
- Competent with engineering software, AutoCAD, MCC design, protection & co-ordination studies.
- Proficient in MS Office, project management software and tools.
- Familiar with maintenance CMMS ie. SAP/Pronto/Oracle.
- Active knowledge of the English language.
- Driver licence B category.

## ABOUT OUR PROCESS

At Adriatic Metals, we are committed to hiring individuals who align with the company's values and meet the requirements of the role. As part of the hiring process, there are various checks that can be conducted to establish the suitability of candidates for a role, including police/criminal checks, medical checks, business partner checks, right-to-work checks, occupational assessments, and/or reference checks.

To apply for this role, please send a copy of your Resume clearly indicating the name of the role, to [posao@adriaticmetals.com](mailto:posao@adriaticmetals.com).

Please note that only shortlisted candidates will be contacted for further consideration. Once again, thank you for your interest in Adriatic Metals. The vacancy is open until we find our best match. We wish you the best of luck in your job search!
